

SR. NO.	PARTICULARS	ACTION TAKEN BY CENTURY TEXTILES & INDUSTRIES LTD., CEMENT DIVISION
1	Waste management in the offices	Waste papers from offices are collected every day in B shift by sanitation workmen & it is disposed off by burning in Kiln next day.
2	Segregation of waste collection	In each department, scrap collection bins (separate for MS, wood and rubber items) provided for waste collection. Stores deptt. lift the scrap and unloaded at designated areas for each item at scrap yard for selling to scrap dealers. Colony waste is collected daily by Sanitation workmen with the help of Tractor Trolley & is disposed off as per ISO 14001:2004 norms at Pits made outside colony.
3	Solid waste management (including e-waste)	All the sanitation drainage pipes (Plant & Colony) is connected to Sewage treatment plant. Electronic waste are sold to Authorized Recycler through Stores.
4	Hazardous waste management	Used Oil & lubricants are deposited by various Departments at Stores & Stores sell the same to Authorized Reprocessor.
5	Recycling and reuse of waste	Sewage water after treatment is reused in cooling tower of Power Plant. It is also used for gardening & green belt development. Solid waste accumulated after sewage water treatment is used as Manure.
6	Industry participation in construction of Public/Community toilets	Till date we have constructed 388 number of toilets at various nearby villages & construction of 40 numbers of toilets is in process under CSR activity. Many awareness campaigns with respect to Swachh Bharat Mission objectives and its linkage with public health have been launched time to time in the area by display through flex banners/boards, distribution of pamphlets, taking out procession displaying cleanliness/sanitation quotes, organising health camps etc.
7	Industry's role to effect behavioral change regarding healthy sanitation practices	We have made one Public Toilet complex with facility of borewell & over head Sintex Tank near Bus Stands at villages. The Toilet complex is kept in well condition under supervision of Local Nagar Parishad.

8	Industry's role in Generating awareness about sanitation and its linkage with public health	Our Medical Practitioners are visiting nearby villages & offering free medical check up & distributing free Medicines once in a Month. They are also educating the village people the importance of hygiene for living a healthy life and use of toilet, by avoiding open defecation. Awareness programme on handwashing was carried out for School children's on the occasion of Global Hand Wash Day.
9	Industry's role in Eradication of Manual Scavenging & Elimination of open defecation.	The Management of Century Textiles & Industries Ltd., Cement Division is fully committed for eradication of open defecation. We have made a number of toilets to the needy people of surrounding villages & the process is still continuing.
10	Planting trees in office complex.	As an environment friendly company, we had planted lacs of trees of various species within our Plant, Mines and Colonies including our Office Complex/ Premises. This year we have planted 5160 plants at Office , Plant & Mines premises & the survival rate is almost 100%.As on date this figure touches well over 13.50 lacs. . Ours is a lush green Colony & Factory premises.
