7.	Any other activity/ Information	NIL	NIL	NIL	N.A.

* We are making 100% digital payment to transporters. The transporters may in turn be paying to the truck drivers in cash for petty expenses like toll, food, repairs, etc. We are motivating them to use digital modes for such payment.

§ Although 100% payment from dealers is received in digital mode only, there may be 'cash transactions' between the retailers and the dealers. Although as a Company we do not have direct control over such retailers, yet we are encouraging the parties in the regular meets/ workshops to adopt digital mode of transaction.

#As a Company we are making 100% digital payments to all our workers and to labour contractors. Some of the labour contractors make cash payment to the labour engaged by them (5%-10%) for which we have asked them to opt for digital payments only.
